Property Manager

Listen. Talk. Communicate.

What is P360 Property Manager?

P360 Property Manager is a Property Management System designed specifically for Pulsar360, Inc. and P360 Enterprise PBX phone systems, PBX Hosted and Premised Based Systems.

It is designed for small-to-medium hotels, Bed and Breakfasts, and hostels, giving hotel staff the ability to check-in and check-out guests, along with simple billing and guest service capabilities. Hotel staff operate and manage Property Manager via a customized Dashboard, provided by the existing User Control Panel (UCP) of Pulsar360, Inc. P360 PBX and P360 Enterprise PBX.

Licensing & Installation

P360 Property Manager manages up to 10 rooms. Businesses requiring more than 10 rooms will need to have a P360 Property Manager Pro license, which offers similar features to P360 Property Manager, but allowing unlimited Room capacity.

P360 Property Manager is already pre-installed on Pulsar360, Inc. PBX / P360 Enterprise PBX systems on version 13.XXX and above.

P360 Property Manager Features

Below are the list of features which Hotel Staff can manage through the P360 Property Manager Dashboard:

- Adding Room	- Mini-bar
- Automated Wake-up calls	- Reporting
- Billing (including taxes)	- Reservations
- Check In	- Restaurant Services
- Check Out	- Room Transfer
- Maid Services	- Room Type
